

United Ride for Wildlife

Canberra to Sydney October 10-11th 2009

This 'United' bike ride marks a commitment to nature, and commemorates the Australians & Balinese who lost their lives in the Bali bombings on October 12th 2002.

We live in **ONE WORLD** where wildlife and financial welfare are interlinked. Let's support each other - wildlife and people.

Make a real difference to the lives of the Orang-utans of Borneo and birds of Bali who have been wounded by poachers and had their habitat stripped and torn away by palm oil plantations.

Please help **FRIENDS of the NATIONAL PARKS FOUNDATION** to prevent this cruelty! <http://www.fnpf.org>
By sponsoring our riders, you can help FNPF rescue and rehabilitate these intelligent creatures as well as conserve their habitat through reforestation projects. In providing education and assistance to these rural communities we can help preserve their future and our children's global future.

Together, **UNITED**, we can make a difference!

Please make a tax-deductible donation through the Humane Society:
